

Specialist coaches

With the help of Sports funding we are able to hire specialist coaches to teach the children a variety of physical activity skills which they require to play individual sports and team sports. Not only do our sports coaches teach the children during PE they hold multi-skills after school clubs

which has helped the children develop their skills. Teachers have the opportunity to continue their CPD in PE depending on the skills the teacher feels they have yet to learn.

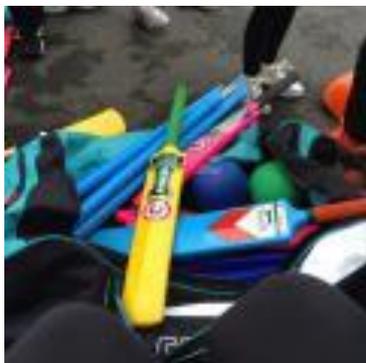

Impact: As a result, our children are able to transfer the skills they learn during PE so they can compete in both intra school competitions and inter school competitions. The children have taken part in many inter school competitions such as: cross country, gymnastics, football, hockey and many more. Teachers are continuing to develop their skills in PE and more sporting after school clubs are being held as a result of this.

Outdoor activities

At St Mary's we like to give our children as many opportunities as possible to experience a variety of sports and challenges. Therefore, we use sports funding to subsidise the cost of outdoor adventure days in the Lake District.

Impact: Our children have experienced sporting activities they would not normally have access to and have developed the relevant skills to work as a team. Some of the activities the children have taken part in are: - Paddle boarding - Ghyll Scrambling - Raft building - Canoeing - Archery.

Sports Equipment

Here at St Mary's, we have purchased sports equipment and resources to help enhance both teaching and learning during PE lessons and after school clubs. With the PE funding we have recently purchased bowls equipment to enable the year 6 children learn the skills required to play this sport.

Impact: This has enabled our children to develop specialist skills required to use a range of different sports equipment and it has helped them to develop the skills they need to compete in sport related activities. As a result of purchasing the bowls equipment, the year 6 children (last year) succeeded in becoming runners up in the yearly bowls tournament. We hope the Year 6's this year can achieve the same level if not win!

Transport

With the help of Sports funding we are able to hire community transport to take our children to a variety of sports competitions and tournaments.

Impact: As a result, our children are able to compete and take part in a variety of sporting events across the county where they have the opportunity to put into practice the skills they have learnt.
